# Exhibit at the ECS Simulation Conference

The ECS Simulation Conference 2021 taking place virtually on May 19th-20th is a hub for sharing expertise in various fields of simulation in vehicle development bundling thermal and structural topics. Engineers present their forward-looking applications and innovative techniques in fatigue analysis, thermal management and dynamic simulation. For more information on the event, please visit [ecs-simulation-conference.com](https://ecs-simulation-conference.com)

## Why exhibit with us?

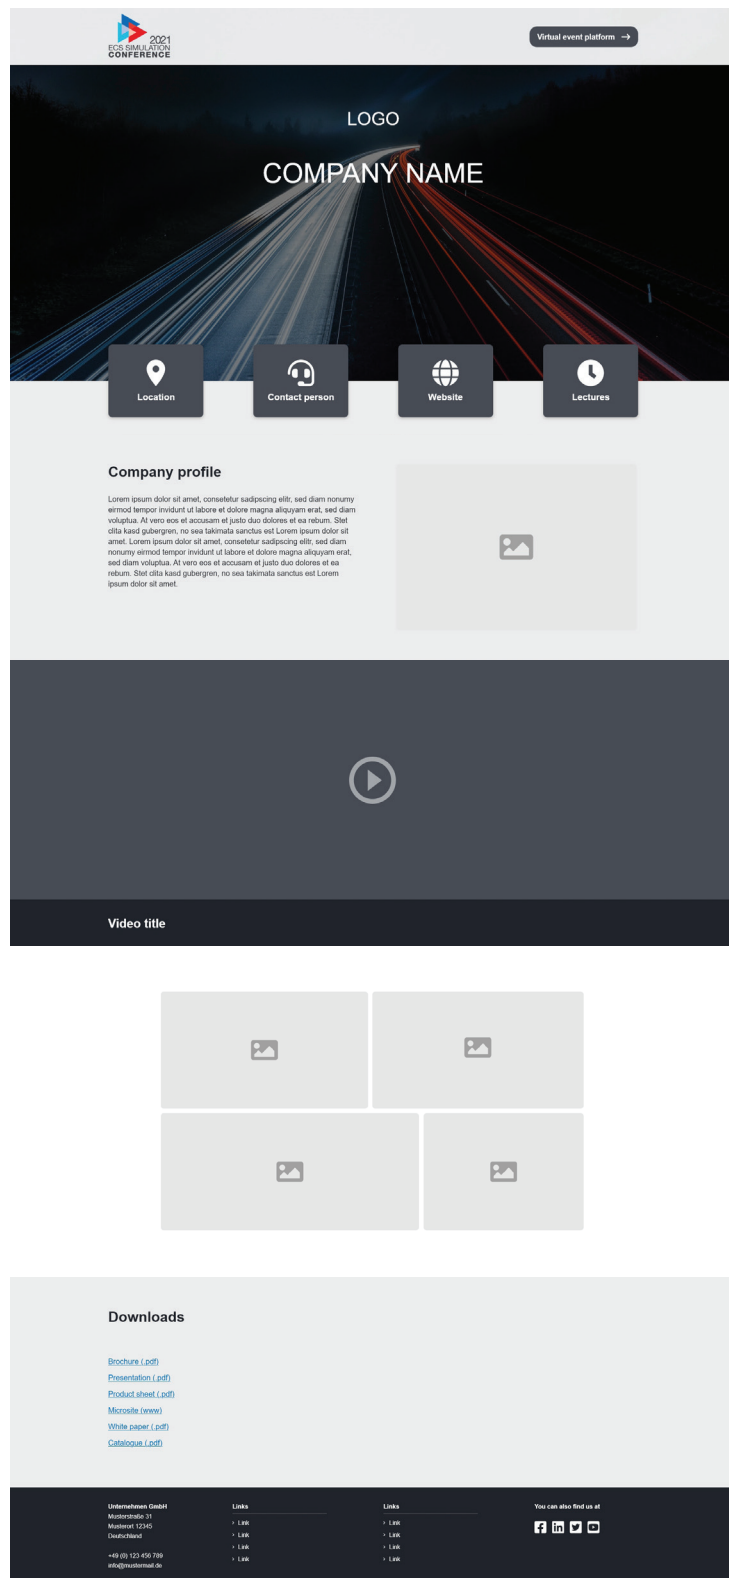

- Increase brand awareness and add value to your products and services
- Network within your industry across the globe
- Connect with prospective customers and partners
- Reinforce your existing business relationships
- Stay informed about the latest technologies and innovations in the fields of simulation in vehicle development

## What we offer?

- a virtual booth in form of a customized microsite featuring your logo, company name and description, photos, videos, and links to website, brochures, presentations, flyers and many more
- a place for your logo on our event [website](https://ecs-simulation-conference.com)

**Do not miss the chance and become an exhibitor at the ECS Simulation Conference 2021!**

**Save your spot and register [online](https://ecs-simulation-conference.com) for only € 500,-**

**We look forward to meeting you at the ECS Simulation Conference 2021!**

If you have any further questions, please feel free to send an email to [ecs-simulation-conference@magna.com](mailto:ecs-simulation-conference@magna.com)

Organized by Engineering Center Steyr GmbH & Co KG
